### INDEPENDENT AUDITOR'S REPORT

To The Members of Sai Life Sciences Limited

Report on the Audit of the Consolidated Financial Statements

### Opinion

We have audited the accompanying consolidated financial statements of Sai Life Sciences Limited ("the Parent" or "the Company") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2022, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2022, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

### **Basis for Opinion**

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under Section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the sub-paragraphs (a) of the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to subsidiaries is traced from their financial statements audited by the other auditors.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

### Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are
  also responsible for expressing our opinion on whether the Parent has adequate internal financial
  controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of business
  activities within the Group to express an opinion on the consolidated financial statements. For
  the subsidiaries included in the consolidated financial statements, which has been audited by the
  other auditors, such other auditors remain responsible for the direction, supervision and
  performance of the audits carried out by them. We remain solely responsible for our audit
  opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Other Matters**

- (a) We did not audit the financial statements of a subsidiary whose financial statements reflect total assets of Rs. 16,256.01 lakhs as at 31 March 2022, total revenues of Rs. 7,440.70 lakhs and net cash inflows amounting to Rs. 35.04 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the reports of the other auditors.
- (b) We did not audit the financial statements of a subsidiary whose financial statements reflect total assets of Rs. 13.56 lakhs as at 31 March 2022, total revenues of Rs. NIL and net cash inflows amounting to Rs. 13.56 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

### Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of the subsidiaries referred to in the Other Matters section above we report, to the extent applicable that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors of the Parent as on 31 March, 2022 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary Companies incorporated in India, none of the directors of the Parent and its subsidiary Companies are disqualified as on 31 March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/provided by the Parent to its directors during the year is in accordance with the provisions of Section 197 of the Act.
  - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014,as amended in our opinion and to the best of our information and according to the explanations given to us:
    - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.

W

- ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
- iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Parent.
- (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 43 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the note 43 to the consolidated financial statements, no funds have been received by the Group from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v) The interim dividend declared and paid by Group during the year and until the date of this report is in accordance with section 123 of the Companies Act 2013.
- 2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements

### iv. Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. Failure to pay any amount called up on shares may lead to forfeiture of the shares. On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

### v. Rights, preferences and restrictions attached to preference shares

The Company has two classes of preference shares viz, CCPS and OCPS. The preference shares are entitled to receive dividend @ 0.01% as declared from time to time on a non-cumulative basis. The said shares are partly paid to the tune of INR 8.06 per share and the same will be treated as fully paid-up upon receiving the payment on final call made for INR 1.94 per share.

The rate of dividend is 0.001% p.a. on a non-cumulative basis for Compulsorily Convertible Preference Shares (CCPS) and Optionally Convertible Preference Shares (OCPS) of Rs. 10/- each, Subsequent to year ended March 31, 2022, the Board of Directors of the Company approved dividend payout of not more than Rs. 100 per share on the CCPS and OCPS of Rs\_10/- each in their meeting on 20-June-2022.

Further, the Board of Directors in their meeting held on 20-June-2022, Declared Interim dividend of Rs. 345 lakhs (Rs. 39.63 per preference share) for the financial year ended 31-Mar-22

### ix. Shares reserved for issue under options

### (a) Employee stock option plan - 2004 ("ESOP 2004")

The Company established a plan ESOP 2004 under which 300,000 equity shares of ₹10 each were earmarked and approved by the Shareholders at the Extraordinary General Meeting held on 13 September 2004. These options shall vest at the end of three years from the grant date. The vested options can be exercised by the employee during his term of employment with the Company

### Employee stock option plan - 2006 ("ESOP 2006")

The Company established a plan ESOP 2006 under which 350,000 equity shares of ₹10 each were earmarked and approved by the Shareholders at the Annual General Meeting held on 16 August 2006. 60% of the options granted shall vest at the end of three years from the grant date and 40% of the options granted shall vest at the end of five years from the grant date. The vested options can be exercised by the employee during his term of employment with the Company

### Sai Employee stock option scheme - 2008 ("SESOS 2008")

The Company established a plan SESOS approved by the Shareholders at the Annual and Extraordinary General Meetings held on 11 September 2008 and 30 March 2009 respectively. As per the scheme, maximum number of employee stock options are restricted to 10% of paid up share capital of the Company. Out of which, 50% of the options granted shall vest at the end of two years from the grant date and the balance 50% of the options shall vest at the end of four years from the grant date. The vested options can be exercised by the employee during his term of employment with the Company

Under this scheme, the company granted additional employee stock options approved by the Shareholders at the Extraordinary General Meeting held on 25 July 2018. The options granted shall vest 20% at the end of every year from the grant date for a period of 5 years. The vested options can be exercised by the employee during his term of employment with the Company

### Management ESOP scheme - 2018 ("MES 2018")

The Company established a plan MES 2018 approved by the Shareholders at the Extraordinary General Meeting held on 25 July 2018. As per the scheme maximum number of shares reserved under this scheme is 4% of the paid up equity capital of the Company on a fully diluted basis as on the Effective Date. The options granted shall vest 20% at the end of every year from the grant date for a period of 5 years. The vested options can be exercised by the employee during his term of employment with the Company

### Amended Management ESOP scheme - 2018 ("Amended MES 2018")

The Company amended the plan MES 2018 approved by the Shareholders at the Extraordinary General Meeting held on 25 March 2022. The amendment has similar terms as the MES 2018 scheme wherein the maximum number of shares reserved under this scheme is 4% of the paid up equity capital of the Company on a fully diluted basis as on the Effective Date. The options granted shall vest in a period of 5 years and as per the terms provided in the Notice of Grant. The vested options can be exercised by the employee during his term of employment with the Company

The terms of the above schemes provide that each option entitles the holder to one equity share of ₹10 each and that the options can be settled only by way of issue of equity shares. The options granted are entirely time-based for ESOP 2004, ESOP 2006, SESOS 2008 MES 2018 and Amended MES 2018 is time and performance based.

(b) During the year ended 31 March 2022, the Company had incurred stock compensation cost of ₹22,08 (31 March 2021: ₹242,00) towards the above schemes.

Foreign currency translation reserve (Note g)	177.97	22.71
	86,062.23	84,513.49

### Nature and purpose of reserves

### (a) Securities premium

The amount received in excess of face value of the equity shares is recognised in Securities Premium. During the year ended 31 March 2022 and 31 March 2021, the Company issued 1,26,727 and 10,46,650 equity shares respectively.

### (b) Capital reserve

Capital reserve pertains to the excess of net assets taken, over the cost of consideration paid pursuant to amalgamation of Advantium Pharma Private Limited with the Company in the earlier years and on forfeiture of certain share warrants issued in the earlier years. The Company uses capital reserve for transactions in accordance with the provisions of the Act.

### (c) Employee stock options outstanding account

Employee stock options outstanding account relates to share options granted by the Company to its employees under its employee share option plan. These will be transferred to retained earnings after exercise of the underlying options.

### (d) Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

### (e) Cash flow hedge reserve

Cash flow hedge reserve represents effective portion of cash flow hedges taken to Other comprehensive income.

### (f) Foreign currency translation reserve

SK Foreign currency translation reserve represents the exchange differences accumulated when the financial statements of foreign operations are concurrency to presentation currency of the Company.

### **Employee benefits**

The Company has the following post -employment benefits plans:

### (a) Defined contribution plan

The following amount has been recognised as an expense in statement of profit and loss account of provident fund and other funds. There are no other obligations other than the contribution payable to the respective authorities

	For the year	For the year
	ended	ended
	31 March 2022	31 March 2021
Contribution to provident fund	664.73	592,10
Contribution to employees state insurance schemes	5.42	5.83
	670.15	597.93

### (b) Gratuity

The Company provides its employees with benefits under a defined benefit plan, referred to as the "Gratuity Plan". The Gratuity Plan entitles an employee, who has rendered at least five years of continuous service, to receive 15 day's last drawn salary for each year of completed service (service of six months and above is rounded off as one year) at the time of retirement/ exit, restricted to a sum of ₹ 20.00 in accordance with Payment of Gratuity Act, 1972. This defined benefit plan exposes the company to actuarial risk such as longevity, interest rate risk and market risk & inflation risk.

### (i) Change in defined benefit obligation

CHARTERED ACCOUNTANTS

<sup>\*</sup>These are held for operational purposes and the Company estimates that the fair value of these investments are not materially different as compared to their cost.

# Sai Life Sciences Limited Notes to the Consolidated financial statements for the year ended 31 March 2022 (continued)

(All amounts in Indian Rupees lakhs, except share data and where otherwise stated)

## 37. Fair value measurements (continued) (ii) Measurement of fair values

Valuation technique and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, for financial instruments measured at fair value in the balance sheet, as well as the significant unobservable inputs used:

Significant Inter-relationshin	iputs t	Not applicable Not applicable	Not applicable Not applicable	Not applicable Not applicable
Valuation technique		Forward pricing: The fair value is determined using quoted forward exchange rates at the reporting date and present value calculations based on high credit quality yield curves in the respective currency	Swap models: The fair value is calculated as the present value of the estimated future cash flows. Estimates of future floating-rate cash flows are based on quoted swap rates, futures prices and interbank borrowing rates. Estimated cash flows are discounted using a yield curve constructed from similar sources and which reflects the relevant benchmark interbank rate used by market participants for this purpose when pricing interest rate swaps. The fair value estimate is subject to credit risk adjustment that reflects the credit risk of the entity and of the counterparty; this is calculated based on credit spreads derived from current credit default swap or bond prices.	The significant valuation inputs considered are the option exercise  price, currency spot rates, tenure, risk-free interest rates and the
Tyne		Forward exchange contract	Interest rate swaps and Cross Currency swaps	Option contracts

(iii) Transfer between Level 1 and 2

There have been no transfers from Level 2 to Level 1 or vice-versa in 2021-22 and no transfers in either direction in 2020-21.

# Notes to the Consolidated financial statements for the year ended 31 March 2022 (continued)

(All amounts in Indian Rupees lakhs, except share data and where otherwise stated)

## 38. Financial instruments risk management

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings, lease liabilities, deposits, trade receivables and other financial instruments.

The sensitivity analysis in the following sections relate to the position as at 31 March 2022 and 31 March 2021. The analyses exclude the impact of movements in market variables on the carrying values of gratuity and other post retirement obligations; provisions; and non-financial assets and liabilities.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has loan facilities on floating interest rate, which exposes the Company to risk of changes in interest rate interest rate movement and manages the interest rate risk based on its policies, which include entering into interest rate swaps as considered necessary. The Company's investment in deposits with banks are for short durations and therefore do not expose the Company to significant interest rate risk.

## Interest rate sensitivity analysis

The sensitivity analysis below has been determined for borrowings assuming the amount of borrowings outstanding at the end of the reporting period was outstanding for the whole year. A 10 basis points increase or decrease in case of foreign currency borrowings and 50 basis points increase or decrease in case of rupee borrowings is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rate. If interest rate had been 10 basis points higher/lower in case of foreign currency borrowings and 50 basis points higher/ lower in case of rupee borrowings and all other variables were held constant, the Company's profit for the year ended 31 March 2022 would decrease/increase by ₹ 281.12 (31 March 2021: ₹ 238.47)

## ii. Foreign currency risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure shall fluctuate because of change in foreign exchange rates. The Company's foreign exchange risk arises from its foreign operations, foreign currency borrowings (primarily in US Dollars). As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Company's revenues and expenses measured in Indian rupees may decrease or increase and vice-versa. The exchange rate between the Indian rupee and these foreign currencies have changed substantially in recent periods and may continue to fluctuate substantially in the future. Consequently, the Company uses both derivative and non-derivative financial instruments, such as foreign exchange forward contracts, currency swap contracts and foreign currency financial liabilities, to mitigate the risk of changes in foreign currency exchange rates in respect of its highly probable forecasted transactions and recognised assets and liabilities.

# a) Significant foreign currency risk exposure relating to financial assets and financial liabilities expressed in ₹ terms are as follows.

### Financial assets

	3	31 March 2022			31 March 2021	
	Trade receivables*	Balances in bank	Other assets	Trade receivables*	Balances in bank	Other assets
- USD	20,630.51	662.44	548.11	15,449.13	1,031.62	1,033.69

Notes to the Consolidated financial statements for the year ended 31 March 2022 (continued)

(All amounts in Indian Rupees lakhs, except share data and where otherwise stated)

## 38. Financial instruments risk management (continued)

(b) Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	Impact on income	income
	31 March 2022	31 March 2022 31 March 2021
USD sensitivity		
₹/USD - Increase by 1%	(65.9)	(52.83)
₹/USD - Decrease by 1%	6.59	52.83
EUR sensitivity		
₹/EUR - Increase by 1%	15.69	38.32
₹/EUR - Decrease by 1%	(15.69)	(38.32)
GBP sensitivity		
₹/GBP - Increase by 1%	1.77	15.97
₹/GBP - Decrease by 1%	(1.77)	(15.97)

## (c) Derivative financial instruments

The following table gives details in respect of outstanding derivative contracts. The counterparty for these contracts are banks.

			31 March 2022	h 2022	31 March 2021	h 2021
	Sell	Buy	No of contracts outstanding	Amount in Lakhs	No of contracts	Amount in Lakhs
Forward contract	US\$	₩	111 \$	\$ 386.45	27	\$89.54
Currency swaps	₩	\$SO	23	;; <b>!</b>	1	₹ 350,46
Currency swaps	US\$	EUR	•	12	1	\$8.96
Interest rate swaps INR (floating to fixed)			1	₹ 6,937.50		
Interest rate swaps USD (floating to fixed)	_		0	75.77	::=	42176

The Company designates its derivative contracts that hedge foreign exchange risk associated with its highly probable forecasted transactions as cash flow hedges and measures them at fair value. The effective portion of such cash flow hedges is recorded as in other comprehensive income, and re-classified in the income statement as revenue in the period corresponding to the occurrence of the forecasted transactions. The ineffective portion of such cash flow hedges is immediately recorded in the statement of profit

### B. Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments. The Company has established a credit mechanism under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, where available, and other publicly available financial information. Outstanding customer receivables are regularly monitored. The maximum exposure to credit risk as at reporting date is primarily from trade receivables amounting to ₹ 24,290,40 (31 March 2021: ₹ 20,578,69) The movement in allowance for impairment in respect of trade receivables during the year was as follows:

## Allowance for doubtful receivables

Opening balance Provision towards doubtful trade receivables Amounts written off

### C. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due, Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the maintaining debt financing plans.

The Company's principal sources of liquidity are the cash flows generated from operations. Further the Company also has long term borrowings and working capital facilities which the management believes are sufficient for its current requirements. Accordingly, no liquidity risk is perceived.

## Maturities of financial liabilities

## 39. Capital risk management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for stakeholders and to maintain an optimal capital structure to reduce the cost of capital. Hence, the Company may adjust any dividend payments, return capital to shareholders or issue new shares or sell assets to reduce debt. Total capital is the equity as shown in the statement of financial position. Currently, the Company primarily monitors its capital structure on the basis of the following gearing ratio. Management is continuously reviewing its strategies to optimize the returns and reduce the risks. It includes plans to optimize the financial leverage of the Company.

The capital for the reporting year under review is summarized as follows:

Total borrowings (note 19)

Less: Cash and cash equivalents (note 15(i))

Less: Other bank balances (note 15 (ii)) and Deposits classified under Other financial assets (note 10)

Net debt (A)

The proportionate premium paid towards this policy and provision made for gratuity and leave encashment pertaining to the KMP has not been included in the aforementioned disclosures as these are not determined on an individual basis.

### (d) Transaction with related parties

In accordance with the applicable provisions of the Income Tax Act, 1961, the Company is required to use certain specified methods in assessing that the transactions with the related parties, are carried at an arm's length price and is also required to maintain prescribed information and documents to support such assessment. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors as prescribed. Based on certain internal analysis carried out, management believes that transactions entered into with the related parties were carried out at arms length prices. The Company is in the process of updating the transfer pricing documentation for the financial year ended 31 March 2022. In opinion of the management, the same would not have an impact on these financial statements. Accordingly, these financial statements do not include the effect of the transfer pricing implications, if any.

- (c) (i) The Central Excise department has raised a demand against the Company on the ground that the Company has not complied with the conditions of Notification No 23/2003 CE dated 31 March 2003. As per the said notification, an Export Oriented Unit (EOU) unit can clear the goods into Domestic Tariff Area (DTA) on payment of excise duty at a concessional rate upto 50% of the Free on Board (FOB) value of the exports on the sale of similar goods to DTA. The central excise officer has held that the goods sold in DTA are different from the goods which are exported. Accordingly raised the above demand along with interest and penalty. Appeal is filed before Central Excise and Service Tax Appellate Tribunal ('CESTAT') and waiting for personal hearing.
  - (ii) The Service tax department has raised a demand on the ground that that the Place of Provision of Service is in India and as such there is no export of service by the Company applying Rule 4 of Place of Provision of Service Rules, 2012. (POPS Rules) with respect to Drug Metabolism and Pharmacokinetic (DMPK) services rendered by the Company. Appeal filed before CESTAT- Pune, on 27 April 15 and Final Order received. Appeal is filed before Honourable High Court on 9 Dec 19 and Personal Hearing is attended on 27 Feb 20. Appeal has been admitted by Hight court on 5th July 2022
  - (iii) The Company has received Entry Tax Assessment orders on 19 February 2018 passed by Commercial Tax Officer, Saroor Nagar Circle (adjudicating authorities) demanding Entry tax on the goods (namely furnace oil and networking cables) purchased from outside the State of Telangana for the Financial years 2013-14 to FY 2016-17 for an amount of ₹ 11.27 and Company has filed an appeal with Appellate Joint Commissioner (ST) ("Appellate Authorities") on 21 March 2018 on the grounds that said goods are inputs and are excluded from levy of Entry Tax. Personal hearing before the Appellate authorities was concluded on 20 March 2020 and Order was passed on 31 March 2020 dismissing the appeal filed by the Company on the grounds that the said goods do not qualify as 'inputs' forming part of final produtes and not eligible for exemption. Against the amount of VAT refund receivable, the Authorities had adjusted the liabilities of Entry Tax (in full) for the Financials years 2013-14 to FY 2016-17 on 19 December 2020 and the matters were closed.

Under the same grounds, the Company has received Entry Tax Assessment orders on 28 October 2019 for the period of Apr-17 to Jun-17 for an Amount of ₹ 1.13 and Company has filed an appeal with Appellate Joint Commissioner (ST) ("Appellate Authorities") on 22 November 2019. Personal hearing before the Appellate authorities was concluded on 20 March 2020 and Order was passed on 31 March 2020 dismissing the appeal filed by the Company on the grounds that the said goods do not qualify as 'inputs' forming part of final produtes and not eligible for exemption. Demand notice is received in the month of September 2020 for recovery of tax arrears. A letter was submitted on 4 Nov 20 requesting not to initiate recovery proceedings pending receipt of the Order. The Company has discharged the liabilities of Entry Tax (in full) for the period April 2017 to June 2017 on 30th March 2022 and the matters were closed.

### Notes to the Consolidated financial statements for the year ended 31 March 2022 (continued)

(All amounts in Indian Rupees lakhs, except share data and where otherwise stated)

(iv) The Company has three Non resident Indians on its rolls covered under the definition of International Workers as per the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. Based on the Government Order, in June 2017, the Company suo moto made a payment of provident fund along with the applicable interest rates.

However, on April 25, 2018, the Company received a notice from the Department stating that from the period 01 April 1996 to 31 March 2018, the Company had delays in deposit of Provident fund amount and accordingly, charged interest and damages under Section 14B and Section 7Q of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 to the extent of Rs 131.51 and Rs 218.91 for interest and damages respectively. The Company has represented the case stating that interest payments were made appropriately. The PF authorities took the such interest payment on record and gave a corrigendum stating the same.

The Company is still contesting the damages payment of ₹ 218.91. The Company during the year addressed a letter dated October 22, 2020 to the Regional Provident Fund Commissioner, requesting it to refrain from taking any such coercive action against the Company and reserved its right to exercise its rights and remedies under law. However, since no presiding officer had been appointed for hearing matters before the Central Government Industrial Tribunal ("CGIT") at that time, the Company filed the present writ petition bearing Writ Petition No. 19867 of 2020 against the RPFC for the setting aside of the Impugned Order as being arbitrary, illegal and violative of Article 14 of the Constitution of India. The matter was listed on November 19, 2020, wherein, the High Court passed an interim order granting a stay on the Impugned Order. However, as on date, there is no further order with regard to the said damages. Apart from the proceedings before the High Court of Telangana, an appeal was also filed by the Client challenging the Impugned Order before the CGIT under Section 7-I of the EPF Act. The matter was listed for admission on April 26, 2021. The CGIT, vide, an order passed on April 26, 2021, observed that the present appeal was admitted subject to the final order passed by the High Court of Telangana. The said order held that the application for stay as filed by the Client would be considered upon obtaining such a final order

- (v) During the previous years the Company has received a demand from income tax authorities relating to financial year 2015-16, 2016-17 & 2017-18 regarding certain disallowances in the income tax return of that year. The Company has filed an appeal and is pending hearing.
- (vi) The Company has litigations under Maharashtra Value Added Tax ('MVAT') Act, 2002 and Central Sales Tax ('CST') Act, 1956 for the years 2009-10 to 2016-17, and for the quarter 1 April 2017 to 30 June 2017. For the years 2009-10 to 2013-14, the Company is in appeal before the Maharashtra Sales Tax Tribunal and for the years 2014-15 to 30 June 2017, the Company is in appeal before the Joint Commissioner (Appeals). The issue pertains to eligibility of refund of Input Tax Credit ('ITC) under MVAT Act.

The tax authorities have raised objection that transfer of deliverables (technical know-how) to the Customer of the Company is a service and not sale of goods. Therefore, the tax authorities at the first level have disallowed ITC and rejected the claim of refund of unutilised ITC of the Company. However, in this regard, the Company believes that transfer of deliverables to the Customer is sale of goods and the Company is eligible for ITC and the refund of unutilized ITC

(vii) The Company is subject to various legal proceedings and claims, which have arisen in the ordinary course of business including litigation pending before various tax authorities, including those mentioned in above points. The uncertainties and possible refunds are dependent on the outcome of different legal processes, which have been invoked by the claimants or the Company, as the case may be, and therefore cannot be accurately predicted. The Company engages reputed professional advisors to protect its interest and has been advised that it has strong legal positions against such disputes. Management believes that it has a reasonable case in its defense of the proceedings and accordingly no further provision is required.

### 43. Other statutory disclosures

- i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami
- ii) The Company does not have any transactions with companies struck off.
- iii) The Company does not have any charges or satisfaction which is yet to be registered with ROC beyond the statutory period.
- iv) The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year.
- v) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- vi) The Company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
- (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or
- (b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- vii) The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Group shall:
- (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
- viii) The Company has not any such transaction which is not recorded in the books of account that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961

### 44. Micro, Small and Medium Enterprises

The Ministry of Micro, Small and Medium Enterprises has issued an Office Memorandum dated 26 August 2008 which recommends that the Micro, Small and Medium Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allotted after filing of the Memorandum. Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2022 & 31 March 2021 has been made in the financial statements based on information received and available with the Company. Further, in the view of the Management, the impact of interest, if any, that may be payable in accordance with the provisions of the Micro, Small and Medium Enterprises Development Act, 2006 is not expected to be material. The Company has not received any claim for interest from any supplier under the said Act.

Notes to the Consolidated financial statements for the year ended 31 March 2022 (continued)

(All amounts in Indian Rupees lakhs, except share data and where otherwise stated)

During the financial year, the company's business operations were impacted by the global health pandemic from COVID-19 (COVID-19) and the lockdown restrictions. COVID-19 is the infectious disease caused by the most recently discovered coronavirus, SARS-CoV-2. In March 2020, the WHO declared COVID-19 a pandemic. Our operations in India come under the jurisdictions of three States Telangana, Karnataka and Maharashtra. The revenue generation for the first quarter was constrained on account of the lockdown regulations. Further the Company has consolidated its operations from the rental facilities in Pune, Maharashtra to its location in Hyderabad, Telangana and had completed the expansion plans (including ramping up headcount) to accommodate the consolidation during previous year. As part of the overall strategy, Company adopted measures to protect and safeguard the health of employees. The cost of operations during the year increased on account of additional costs due to the restrictions imposed by the regulators, compensations to the families for the deceased employees due to Covid, vaccination to all employees & family members and in mitigating and safeguarding the health risks of the employees.

The Company has evaluated impact of COVID-19 pandemic in assessing the recoverability of non-current assets, inventories, trade receivables and contract assets based on its review of current indicators of future economic conditions. Based on such assessment, the Company expects to recover carrying values of such assets. The Company will continue to closely monitor any material changes to future economic conditions.

#### Approval of financial statements

The financial statements were approved by the Board of Directors on 17 August 2022.

#### Sai Life Sciences Limited Notes to the Consolidated financial statements for the year ended 31 March 2022

#### Corporate information

The consolidated financial statements comprise of the financial statements of Sai Life Sciences Limited ("Sai Life" or "the Parent Company" or "the Company"), its subsidiaries (collectively, referred to as the "Group"). Sai Life Sciences Limited is a closely held public limited company domiciled and incorporated in India in accordance with the provisions of the Companies Act, 1956. The registered office of the Company is situated in Hyderabad, Telangana and has facilities in the states of Telangana, Karnataka and Maharashtra, India.

The group carries out contract research and manufacturing activities for customers engaged in pharmaceutical and biotechnology industries.

## 1. Basis of preparation Statement of compliance

The consolidated financial statements of the Company which comprise of the Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the statement of cash flows and the statement of changes in equity ("consolidated financial statements") have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as notified under Section 133 of the Companies Act 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules 2015, as amended, issued by the Ministry of Corporate Affairs ('MCA') and other relevant provisions of the Act, as applicable. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

These consolidated financial statements have been prepared for the Group as a going concern on the basis of relevant Ind AS that are effective at the Group's annual reporting date 31 March 2022. These consolidated financial statements were authorised for issuance by the Group's Board of Directors on 17<sup>th</sup> August, 2022.

These consolidated financial statements have been prepared on the historical cost convention and on an accrual basis except for the following material items in the balance sheet:

- Certain financial assets and liabilities which are measured at fair value;
- Net defined benefit assets / (liability) are measured at fair value of plan assets, less present value of defined benefit obligations; and
- Share based payments, which are measured at fair value of the options.

#### Functional and presentation currency

The consolidated financial statements are presented in Indian Rupee ('INR' or '₹') which is also the functional and presentation currency of the Group. All financial information presented in Indian rupees has been rounded to the nearest lakhs, unless otherwise stated. In respect of subsidiaries whose operations are self-contained and integrated within their respective countries/regions, the functional currency has been determined to be the local currency of those countries/regions.

#### 2. Use of estimates and judgements

SKINS

CHARTERED ACCOUNTANT

The preparation of consolidated financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which such changes are made and in any future periods affected.

## Sai Life Sciences Limited Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

#### Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Group's accounting policies that have the most significant effect on the amounts recognised in the financial statements.

#### Revenue recognition

The Group applies judgement to determine whether each product or service promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. Revenue will be recognised as the customer obtains control of the product and services promised in the Contract. Given the nature of the product and terms and conditions in case of certain contracts, the customer obtains control as the Group performs the work under the contract. Therefore, revenue is recognised over time for such contracts and for other contracts at a point in time. The Group uses the percentage of completion method to measure progress towards completion in respect of fixed price contracts. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the following notes:

#### Assumptions and estimation uncertainties

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Items requi	ring	Assumption and estimation uncertainty
significant estima	_	·
Useful lives	of	The Group reviews the estimated useful lives of property, plant and equipment
property, plant	and	and the intangible assets at the end of each reporting period. During the current
equipment	and	year, there has been no change in life considered for the assets.
Intangible assets		
Estimation of	net	Inventories are stated at the lower of cost and net realisable value. In estimating
realisable value	of	the net realisable value of inventories the Group makes an estimate of future
inventories		selling prices and costs necessary to make the sale.
Fair valua	ation	Some of the Group's assets and liabilities are measured at fair value for financial
measurement	and	reporting purposes.
valuation process		
		In estimating the fair value of an asset or a liability, the Group uses market- observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation. Finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model.
Contract assets		Contract asset is recognised when the performance obligations are fulfilled and revenue is recognised over a period of time. Estimates are involved in determining the percentage of completion of the contract.
Leases		Contracts are reviewed to evaluate whether the arrangement contains a lease

## Sai Life Sciences Limited Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

Items requiring	Assumption and estimation uncertainty
significant estimate	
Employee benefits	The Group uses actuarial assumptions to determine the obligations for employee benefits at each reporting period. These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.
Provisions, contingencies - Recognition and measurement of provisions and contingencies; key assumptions about the likelihood and magnitude of an outflow of resources	The Group has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the tax liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is disclosed in the notes to the consolidated financial statements.
Provision for taxes	Significant judgments are required in determining the provision for income taxes, including the amount expected to be paid/recovered for uncertain tax positions.  In assessing the realisability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realised. The ultimate realisation of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The amount of deferred income tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

#### 3. BASIS OF CONSOLIDATION

#### Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The consolidated financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. The consolidated financial statements of the Group are consolidated on line-by-line basis. Intra-group transactions, balances and any unrealised gains arising from intra-group transactions, are eliminated. Unrealised losses are eliminated, but only to the extent that there is no evidence of impairment. All temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions are recognised as per Ind AS 12, Income Taxes. For the purpose of preparing these consolidated financial statements, the accounting policies of subsidiaries has been kept consistent with the policies adopted by the Group.

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in consolidated statement of profit and loss.

#### Following are the subsidiaries considered in these consolidated financial statements:

USA
India
Germany

#### 4. Summary of significant accounting policies

The consolidated financial statements have been prepared using the accounting policies and measurement basis summarized below.

#### a. Current and non-current classification

All the assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Act. The Group presents assets and liabilities in the consolidated balance sheet based on current/non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

#### A liability is classified as current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Current assets / liabilities include the current portion of non-current assets / liabilities respectively. All other assets / liabilities including deferred tax assets and liabilities are classified as non-current.

#### b. Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Group at exchange rates at the dates of the transactions or at the rate that closely approximates the rate at the date of transactions. The date of transaction for the purpose of determining the exchange rate on initial recognition of the related asset, expense or income (part of it) is the date on which the entity initially recognises the nonmonetary asset or non-monetary liability arising from payment or receipt of advance consideration Monetary assets and liabilities denominated in foreign currencies at the reporting period are translated into the functional currency at the exchange rate at that date. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not translated.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the consolidated statement of profit and loss in the year in which they arise, except in case of exchange differences relating to long-term foreign currency monetary items, to the extent they are used for financing the acquisition of property, plant and equipment ("PPE") and drawn on or before 1 April 2016, are added to or subtracted from the cost of such PPE. In accordance with Ind AS 101 First time adoption of Indian Accounting Standards the entity

#### Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

continues the above accounting treatment in respect of the long-term foreign currency monetary items recognised in the financial statements as on 31 March 2016.

#### Foreign operations

The assets and liabilities of foreign operations (subsidiaries) including goodwill and fair value adjustments arising on acquisition, are translated into INR, the functional currency of the Group, at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into INR at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction. Foreign currency translation differences are recognised in OCI and accumulated in equity (as exchange differences on translating the consolidated financial statements of a foreign operation), except to the extent that the exchange differences are allocated to NCI.

#### c. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of Services: In contracts involving the rendering of services/ development contracts, revenue is recognised at the point in time in which services are rendered. In case of fixed price contracts, the customer pays a fixed amount based on the payment schedule and the Group recognises revenue on the basis of input method. If the services rendered by the Group exceed the payment, a Contract asset (Unbilled Revenue) is recognised. If the payments exceed the services rendered, a contract liability (Deferred Revenue and Advance from Customers) is recognised. If the contracts involve time-based billing, revenue is recognised in the amount to which the Group has a right to invoice.

Contributions received from customers towards items of property, plant and equipment which require an obligation to supply services in the future to the customer over a specified period, is recognised as revenue from operations over the specified period. The Group capitalises the gross cost of these assets as the Group controls these assets.

Sale of goods: Revenue from the sale of goods is recognised when the Group transfers Control of the product. Control of the product transfers upon shipment of the product to the customer or when the product is made available to the customer, provided transfer of title to the customer occurs and the Group has not retained any significant risks of ownership or future obligations with respect to the product shipped. Amounts disclosed as revenue are net of returns, trade allowances, rebates and indirect taxes.

- 'Bill and hold' sales, in which delivery is delayed at the buyer's request but the buyer takes title and accepts billing, revenue is recognised when the buyer takes title, provided:
- (a) it is probable that delivery will be made;
- (b) the item is on hand, identified and ready for delivery to the buyer at the time the sale is recognised;
- (c) the buyer specifically acknowledges the deferred delivery instructions; and
- (d) the usual payment terms apply.

Revenue is not recognized when there is simply an intention to acquire or manufacture the goods in time for delivery.

#### Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR) method.

#### Dividend income

Dividend income is recognised when the Group's right to receive the payment is established, which is generally, when shareholders approve the dividend.

Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

#### Export incentives

Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

#### d. Property, plant and equipment (PPE)

#### Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Exchange differences arising on long-term foreign currency monetary items initially recognized in the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP are capitalised.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

Any gain or loss on disposal of an item of PPE is recognised in consolidated statement of profit and loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

#### Depreciation

Depreciation on items of PPE is provided on the straight-line method, computed on the basis of useful lives as estimated by the management which coincides with the useful lives mentioned in Schedule II to the Companies Act, 2013. Freehold land is not depreciated.

The estimated useful lives of the assets are based on a technical evaluation reflecting actual usage of assets.

Asset Category	Estimated useful life (in years)
Buildings	30
Leasehold improvements	Over the lease period
Plant and equipment	15-20
Furniture	10
Freehold Vehicles	8-10
Freehold Computers	3

Items of PPE acquired wholly or partly with specific grant / subsidy from government (or) customers, are recorded at the acquisition cost to the Group and the amount received under the grant pending donor approval or conditions to be fulfilled is disclosed as a liability.

Depreciation on additions / disposals is provided on a pro-rata basis i.e. from / up to the date on which asset is ready for use / disposed-off.

The residual values, useful lives and method of depreciation of are reviewed at each financial year-end and adjusted prospectively, if appropriate.

#### e. Intangible assets

Internally generated

Expenditure on research activities is recognised in consolidated statement of profit and loss as incorred

#### Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in consolidated statement of profit and loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

#### Others

Other intangible assets are initially measured at cost. Subsequently, such intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses, if any. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in consolidated statement of profit and loss as incurred.

The intangible assets are amortized over a period of 6 years, on a straight line basis.

#### f. Impairment

#### Impairment of tangible and intangible assets

The carrying amounts of the Group's tangible and intangible assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit for which the estimates of future cash flows have not been adjusted. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets.

An impairment loss is recognised in the consolidated statement of profit and loss if the estimated recoverable amount of an asset or its cash generating unit is lower than its carrying amount. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been previously recognised.

#### Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime expected credit losses. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

#### Impairment of non-financial assets

The Group assess at each reporting date whether there is any indication that the carrying amount may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount in the consolidated statement of profit and loss. The Group's non-financial assets, inventories and deferred

#### Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

#### g. Inventories

Inventories are measured at the lower of cost and net realisable value. The method of determining cost of various categories of inventories is as follows:

- (i) Raw materials Weighted average cost. Cost includes purchase cost and other attributable expenses
- (ii) Stores and spares and packing material Weighted average cost
- (iii) Finished goods and work-in-process is based on average cost of production or conversion which comprises direct material costs, direct wages and applicable overheads.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Chemicals, reagents and consumables held for use in the production of finished products / rendering of services are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products / services will exceed their net realisable value.

#### h. Measurement of fair values

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

#### i. Financial instruments

Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value and, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

#### **Financial assets**

On initial recognition, a financial asset is classified as measured at

amortised cost;

Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

- fair value through other comprehensive income ("FVOCI") debt investment;
- FVOCI equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

#### Amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in Other Income in the consolidated statement of profit and loss. The losses arising from impairment are recognised in the consolidated statement of profit and loss.

#### FVOCI – debt investment

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). However, the Group recognises interest income, impairment losses & reversals and foreign exchange gain or loss in the consolidated statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to consolidated statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

#### FVTOCI - Equity investment

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVTOCI – equity investment). This election is made on an investment-by-investment basis.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the Instrument, including foreign exchange gain or loss and excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the consolidated statement of profit and loss.

#### FVTPL

CHARTERED

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at

Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

#### **Financial liabilities**

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in consolidated statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in consolidated statement of profit and loss. Any gain or loss on derecognition is also recognised in consolidated statement of profit and loss.

#### De-recognition

#### Financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset; or the Group has neither transferred nor retained substantially all the risk and rewards of the asset but has transferred control of the asset.

#### Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

#### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

#### Derivative financial instruments:

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

The Group designates their derivatives as hedges of foreign exchange risk associated with the cash flows of highly probable forecast transactions and variable interest rate risk associated with borrowings (cash flow hedges).

The Group documents at the inception of the hedging transaction the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset changes in cash flows of hedged items. The group documents its risk management objective and strategy for undertaking various hedge transactions at the inception of each hedge relationship.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are also classified as a current asset or liability when expected to be realised/settled within 12 months of the balance sheet date.

## Sai Life Sciences Limited Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

(i) Cash flow hedges that qualify for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/(losses).

When option contracts are used to hedge forecast transactions, the group designates only the intrinsic value of the option contract as the hedging instrument.

Gains or losses relating to the effective portion of the change in intrinsic value of the option contracts are recognised in the cash flow hedging reserve within equity. The changes in the time value of the option contracts that relate to the hedged item ('aligned time value') are recognised within other comprehensive income in the costs of hedging reserve within equity.

When forward contracts are used to hedge forecast transactions, the group generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to the effective portion of the change in the spot component of the forward contracts are recognised in other comprehensive income in cash flow hedging reserve within equity. The change in the forward element of the contract that relates to the hedged item ('aligned forward element') is recognised within other comprehensive income in the costs of hedging reserve within equity. In some cases, the entity may designate the full change in fair value of the forward contract (including forward points) as the hedging instrument. In such cases, the gains and losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedging reserve within equity.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for example, when the forecast sale that is hedged takes place).

When the hedged forecast transaction results in the recognition of a non-financial asset (for example inventory), the amounts accumulated in equity are transferred to profit or loss as follows:

- With respect to gain or loss relating to the effective portion of the intrinsic value of option contracts, both the deferred hedging gains and losses and the deferred aligned time value of the option contracts are included within the initial cost of the asset. The deferred amounts are ultimately recognised in profit or loss as the hedged item affects profit or loss (for example, through cost of sales).
- With respect to gain or loss relating to the effective portion of the spot component of forward contracts, both the deferred hedging gains and losses and the deferred aligned forward points are included within the initial cost of the asset. The deferred amounts are ultimately recognised in profit or loss as the hedged item affects profit or loss (for example, through cost of sales).
- The gain or loss relating to the effective portion of the interest rate swaps hedging variable rate borrowings is recognised in profit or loss within 'finance cost'.

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss within other gains/(losses). Hedge ineffectiveness is recognised in profit and loss within other gains/(losses).

#### Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of the hedge relationship rebalancing.

#### (ii) Derivatives that are not designated as hedges

The Group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other gains/(losses).

Dividend distribution to equity holders of the Group

The Group recognises a liability to make dividend distributions to equity holders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

#### i. Leases

CHARTERED

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

#### Company as a lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if

Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

#### k. Business combination

The Group accounts for its business combinations under acquisition method of accounting, where applicable. Acquisition related costs are recognised in the statement of profit and loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date.

Purchase consideration paid in excess of the fair value of net assets acquired is recognised as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognised as capital reserve.

Transaction costs incurred in connection with a business combination are expensed as incurred.

Business combinations arising from transfers of interests in entities that are under common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity is recorded in shareholders' equity.

l. Cash and cash equivalents

Cash and cash equivalent in the consolidated balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

#### m. Government Grants

The Group recognises government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants received in relation to assets are recognised as deferred income and amortized over the useful life of such asset. Grants related to Income are recognized in consolidated statement of profit and loss as other operating revenues.

n. Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

#### o. Employee benefits

SKINS &

CHARTERED

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts.

#### Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

Eligible employees of the Group receive benefits from provident fund, which is a defined contribution plan. Both the eligible employees and the Group make monthly contributions to the Government administered provident fund scheme equal to a specified percentage of the eligible employee's salary. Amounts collected under the provident fund plan are deposited with in a government administered provident fund. The Group has no further obligation to the plan beyond its monthly contributions.

#### Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed during the period as the related service is provided. These benefits include salaries and wages, bonus and exgratia. A liability is recognised for the amount expected to be paid, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

#### Long-term employee benefits

Employee benefits payable after twelve months of receiving employee services are classified as long-term employee benefits. These benefits primarily include one-off retention incentive and long-term bonus provision, in accordance with the policy of the Group. The Group accrues these costs based on the expected payout and the same is amortised over a period of services.

#### Gratuity

The Group provides for gratuity, a defined benefit plan ("the Gratuity Plan") covering the eligible employees of the Group. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's last drawn salary and the tenure of the employment with the Group. Liability with regard to the Gratuity Plan is determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The defined benefit plan is administered by a trust formed for this purpose through the Group gratuity scheme. The Group recognises the net obligation of a defined benefit plan as a liability in its consolidated balance sheet. Gains or losses through remeasurement of the net defined benefit liability are recognized in other comprehensive income and are not reclassified to profit and loss in the subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income. The effect of any plan amendments are recognised in the consolidated statement of profit and loss. The net interest on net defined benefit liability which reflects the change in net defined benefit liability that arises from the passage of time is considered as finance cost and disclosed under "Finance costs"

#### Compensated absences

The Group's policy permits employees to accumulate and carry forward a portion of unutilized compensated absences and utilize them in future periods or receive cash in lieu thereof in accordance with the terms of such policy. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet.

#### Share based compensation

SKINS &

CHARTERED CCOUNTANTS

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

#### p. Provisions, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are

Notes to the consolidated financial statements for the year ended 31 March 2022 (continued)

reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group; or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed. However, when realization of income is virtually certain, related asset is recognized.

#### q. Income taxes

Tax expense recognized in the statement of profit and loss consists of current and deferred tax except to the extent that it relates to items recognised in OCI or directly in equity, in which case it is recognised in OCI or directly in equity respectively.

Calculation of current tax is based on tax rates and tax laws that have been enacted for the reporting period and any adjustment to tax payable in respect of previous years. Current tax assets and tax liabilities are offset where the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period. Deferred tax liability are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Deferred tax assets and liabilities are offset if there is a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Group.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Withholding tax arising out of payment of dividends to shareholders under the Indian Income tax regulations is not considered as tax expense for the Group and all such taxes are recognised in the statement of changes in equity as part of the associated dividend payment.

#### r. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding during the year for the effects of all dilutive potential equity shares.
